Index

March–December, 1977

A delta fibers, in pain transmission, Dec., 623
Abusive and neglectful parents, Sept., 513–524
Accountability, in primary nursing, June, 224
Acculturation, March, 9
Activities of daily living, in diabetes education, Sept., 388–389
Addiction, fear of, in refusal of pain medication, Dec., 665–667
Administration, role in ambulatory patient education, Dec., 605–607
Adrenalin, release of, in Somogyi phenomenon, Sept., 442
Albumin, serum, in diagnosis of liver disease, June, 281
Alcohol, effects on pain, Dec., 625
  metabolism in liver, June, 293
Alcoholism, nursing intervention in, June, 355
Aldactone, use in cirrhosis, June, 296
Alkaline phosphatase, serum, in diagnosis of liver disease, June, 279
Allen's test, March, 115
Alpha-1-antitrypsin, relation to liver disease, June, 282
Alpha-fetoprotein, relation to liver disease, June, 282
Ambulatory care, Dec., 539–608
  history of, Dec., 544
  modular system of, Dec., 548
  nurse practitioner role in, Dec., 553–559
  of cancer patients, Dec., 561–570
  of chronic schizophrenia, Dec., 575–580
  patient education in, Dec., 595–608
  program for, development of, Dec., 543–551
  quality assurance in, Dec., 583–593
  triage in, Dec., 555–557
Ambulatory mental health clinic, Dec., 571–581
  goals of, Dec., 572
  history of, Dec., 571
  nursing role in, Dec., 572
  patient assessment in, Dec., 574
American Indian
  health care practices, March, 35, 55–65
    cross-cultural conflicts in, March, 63
  medicine of, March, 36
  mortality and morbidity rates, March, 58
  nurse and, March, 37
  population background, March, 56
  stereotypes of, March, 59
Amygdalin, for cancer, case history of, Dec., 565
Analgesics, action of, Dec., 625
Aneurysm, aortic, March, 98
Angina, pain of, case history of, Dec., 645–651
Anxiety, of cancer patient, relief of, Dec., 657–660
  separation, effect on pain in children, Dec., 635
Aorta, occlusive disease of, March, 98
Aortography, in diagnosis of peripheral occlusive disease, March, 132
Aorto-iliac reconstruction, for peripheral occlusive disease, March, 133
Appalachian region, definition of, March, 42
  health problems in, March, 43
  medical care in, March, 44
Appalachians
  as a cultural minority, March, 41–54
  behavioral traits of, March, 47
  folk medicine of, March, 48
  nursing intervention with, March, 49
  values and beliefs of, March, 45
Arterial insufficiency. See *Arterial occlusive disease, peripheral.*
Arterial occlusion, peripheral, acute, March, 97
Arterial occlusive disease, peripheral, March, 87–168
  discharge planning in, March, 158
  goals of management, March, 92
  interview and history in, March, 109
  nature of, March, 89
  patient education in, March, 151–159
  physical examination in, March, 111, 129

Arterial occlusive disease *(Continued)*
peripheral, rehabilitation in, March, 161–168
signs and symptoms, March, 90, 110
surgery for, March, 129–142
gains and losses of, March, 119–127
postoperative care, March, 143–149
procedures, March, 133
Arterial surgery, reconstructive, of extremities, March, 129–142
Arteries, anatomy of, March, 101
Arteriosclerosis obliterans, March, 87–168
See also *Atherosclerosis.*
Ascites
clinical manifestations, June, 352
etiology, June, 351
in cirrhosis, June, 351
management, June, 352
nursing care in, June, 354
Asian client, health care and, March, 37
Assessment, in cirrhosis, June, 348
in liver disease, June, 268
in peripheral arterial occlusive disease, March, 109–117
of black client, March, 31
of pain in children, Dec., 631–637
of physical differences among racial groups, March, 21
Atherosclerosis
pathogenesis of, March, 102
peripheral, March, 89, 101–108
risk factors in, March, 104
Attachment, father-child, Sept., 483–485
Audit, in ambulatory care quality assurance, RUMBA method of, Dec., 585, 587
in diabetes education, Sept., 369–372
Australian antigen, June, 283, 307
Autoantibody reactions, in diagnosis of liver disease, June, 283

Balloon tamponade for bleeding varices, June, 337
Behavior modification, in parent education, Sept., 474–475
Behavioral objectives, of ambulatory patient education, Dec., 601–603
Bile salts, formation of, June, 263
Bilirubin, metabolism of, June, 264
serum, tests for, June, 275
Biological diversity, and health care, March, 1–86
Biological variation
among racial groups, March, 19–26
importance for nursing, March, 19
in blood groups, March, 24
in body structure, March, 24
in susceptibility to disease, March, 23
Biopsy, of liver, June, 287
Black client, and health care, March, 29–31
health problems of, March, 29
nursing implications with, March, 30
pain response in, Dec., 665
Blood coagulation factors, in diagnosis of liver disease, June, 280
Blood sugar(s), fasting, in diabetes management, Sept., 418
level of, in Somogyi phenomenon, Sept., 441–442
Blood types, biological variations in, March, 24
relation to disease susceptibility, March, 23
Body image, threat to, in vascular surgery, March, 123
Brain, in pain recognition, Dec., 624
Breast cancer, pain of, case history of, Dec., 653–662
Breathing, mouth, complications of, Dec., 673
Bromsulphalein test for liver disease, June, 284
BSP test for liver disease, June, 284
Buccal mucosa, assessment of, Dec., 677
Buerger-Allen exercises, March, 147
Bypass grafting procedures, for peripheral arterial occlusion, March, 133

C fibers, in pain transmission, Dec., 623
Cancer, ambulatory care of, Dec., 561–570
anxiety in, relief of, Dec., 657–660
breast, pain of, case history of, Dec., 653–662
Laetrile for, case history of, Dec., 565
pain of, medications for, Dec., 657
terminal, dealing with death in, Dec., 660
Carbohydrates, for diabetic hypoglycemia, Sept., 387
Cardiac pain, unusual, case history of, Dec., 645–651
Caries, dental, causes of, Dec., 672
Cerebral cortex, in pain recognition, Dec., 624
Change, in nursing service organization, bases for, June, 197–203
Chemotherapy, cancer, administration of, ambulatory nurse role in, Dec., 563
parenteral, in chronic schizophrenia, Dec., 576–579
patient feelings about, Dec., 566
Child abuse, counseling for, Sept., 513–524
Child development, course in, for abusive and neglectful parents, Sept., 517
Childrearing, effect of family structure on, Sept., 452–453

Children
health care of, mother's beliefs in relation to, March, 82
pain in, assessment of, Dec., 631–637
effect of developmental level on, Dec., 631–633
effect of hospitalization on, Dec., 635
effect of parental attitudes on, Dec., 633–635
nursing care for, Dec., 639–643
physiology of, Dec., 636
portal hypertension in, June, 317, 319
vitamin supplements for, as folk belief, March, 79
Chinese client, health care and, March, 37
Chinese medicine, March, 38
Cirrhosis, June, 345–356
ascites in, June, 351
bleeding esophageal varices in, June, 331–343
diuretics in, June, 296
drug treatment in, June, 296
post-hepatitis, June, 312
Claudication, intermittent, March, 90, 110
Clinilog, in urine testing, Sept., 384
Coagulation factors, in diagnosis of liver disease, June, 280
Coma, hepatic. See *Encephalopathy, hepatic.*
Communal families, Sept., 451
Coronary artery disease, pain of, case history of, Dec., 645–651
Cortex, cerebral, in pain recognition, Dec., 624
Counseling, for child abuse, Sept., 513–524
Cross-cultural nursing, March, 56
Cultural diversity
and health care, March, 1–86
meaning and importance, March, 8
nursing care and, March, 5–18
ways of reacting to, March, 11
Cultural sensitivity, developing, March, 28
Culture, definition, March, 10
effect on pain response, Dec., 624, 663–668
in children, Dec., 634
Cytomegalovirus, June, 308

Dane particle, June, 284, 307
Day care, Sept., 525–533
history of, Sept., 529–530
nursing role in, Sept., 531–532
status of, Sept., 530–531
Death, dealing with, in terminal cancer, Dec., 660
Decompression procedures for portal hypertension, June, 322
Decubitus ulcer(s), in diabetes, treatment of, Sept., 397
in peripheral vascular disease, March, 166
Defense mechanism(s), in coping with pain, Dec., 656
pain as, Dec., 626
Dehydration, in diabetes, treatment of, Sept., 398, 423–424
Demerol, addiction to, fear of, Dec., 665–667
for cancer pain, Dec., 657
Dental caries, causes of, Dec., 672
Dental floss, in oral care, Dec., 682
Dentifrice, in oral care, Dec., 679
Dependency, in transition to parenthood, Sept., 461
Depression, in diabetes, Sept., 399–401
Diabetes
clinic management of, Sept., 415–426
protocols for, Sept., 421–426
complications of, Sept., 393–406
education in, Sept., 402–405
diet instruction in, Sept., 389–390, 418–419
effect on activity, Sept., 388, 419
emotional reactions to, Sept., 431
insulin-dependent, Somogyi phenomenon in, Sept., 439–445
management of, Sept., 398–399
patient and nurse practitioner in, Sept., 415–426
patient care guidelines in, Sept., 367–369
patient education in, Sept., 387, 410–411
nursing care in, Sept., 393–406
pathophysiology of, Sept., 384–385
visual handicaps in, aids for, Sept., 386–387
Diabetes education, evaluation of, Sept., 370, 413, 425
for activities of daily living, Sept., 388–389
for deprived patient, Sept., 427–437
for patient with complications, Sept., 402–405
for previously diagnosed diabetics, Sept., 371
implementation of, Sept., 371, 372, 383, 413
inservice program in, Sept., 371
nurse in, problems of, Sept., 367
outcome criteria in, Sept., 365
patient care plan in, Sept., 377–390
quality assurance in, Sept., 363–373
standardized teaching program in, Sept., 375–391
student participation in, Sept., 407–414

Diagnosis, nursing. See *Nursing diagnosis.*
Diet, in diabetes, Sept., 389–390, 418–419
for malnutrition, Sept., 401–402
in oral health, Dec., 672
Dilaudid, for cancer pain, Dec., 657
Discipline, course in, for abusive and neglectful parents, Sept., 520–521
Distraction techniques, for pain, in angina, Dec., 649
in cancer, Dec., 659
Diuretics, in cirrhosis, June, 296
Diversity, cultural and biological, and health care, March, 1–86
Divorced fathers, Sept., 487
Documentation, in nursing, problems of, *June, 236*
Drugs
effects on pain, Dec., 625
for pain relief, patient attitude toward, Dec., 665–667
injury to liver by, June, 301
metabolism of, in liver, June, 291
effect of hepatic injury on, June, 295
Dyes, clearance of, in diagnosis of liver disease, June, 284

Ear wax, biological variations in, March, 22
Education, diabetes. See *Diabetes education.*
of nurse practitioner in ambulatory care, Dec., 557
parent, Sept., 469–479. See also Parent education.
patient. See *Patient education.*
staff, in ambulatory care quality assurance, Dec., 590
Electroencephalography, in assessment of cardiac pain, Dec., 647
Embolus, arterial, March, 97
Emergency service, nurse practitioner role in, Dec., 553–559
Encephalopathy, hepatic
after shunting procedure, June, 327
clinical manifestations, June, 347
etiology, June, 346
pathogenesis, June, 346
precipitation by drugs, June, 300
therapy, June, 347
Endocrine system, disorders of, teaching program for, Sept., 408–410, 412–413
Enkephalins, effects on pain, Dec., 625
Enzymes, serum, in diagnosis of liver disease, June, 279
Epinephrine, release of, in Somogyi phenomenon, Sept., 442
Epstein-Barr virus, June, 308
Esophageal varices, bleeding, June, 331–343. See also *Varices.*
Esophagoscopy, for bleeding varices, June, 333
Ethanol, effects on pain, Dec., 625
metabolism by liver, June, 293
Ethnic groups of color, March, 6
health care and, March, 27–40
perceptions of health care by, March, 28
Ethnocentrism, March, 11
Evaluation, of diabetes education, Sept., 370, 413, 425
Exercise, after surgery for peripheral arterial occlusion, March, 147
in diabetes, Sept., 388

Family(ies)
abusive and neglectful, services to, Sept., 514
in transition, nursing role in, Sept., 466–467, 498–501
origins, Sept., 448–449
role in socialization, Sept., 453–454
sex-role reorientation in, Sept., 485–486
single–parent, Sept., 503–511. See also *Single-parent families.*
structure of, Sept., 449–453
effect on childrearing, Sept., 452–453
task assignment in, Sept., 485–486
See also *Parenting.*
Family Life Education, for abusive and neglectful parents, Sept., 513–524
Fasting blood sugars, in diabetes management, Sept., 418
Fathering, Sept., 481–490
patterns in, Sept., 487–488
See also *Parenting.*
Father-child attachments, Sept., 483–485
Femininity, masculinity vs., Sept., 485–486
Femoral arteriography, in diagnosis of *peripheral occlusive disease, March, 133*
Femoral-popliteal-tibial reconstruction, for peripheral arterial occlusion, March, 137
Fluid replacement, in diabetes, Sept., 399
Fluphenazine, for chronic schizophrenia, *Dec., 576–579*
"Focusing," in coping with pain, Dec., 649
Folk beliefs, and health practices, March, 77–86
Food exchanges, in diabetic diet, Sept., *401–402*
Foot care, in diabetes, Sept., 388
in peripheral arterial occlusive disease, March, 94
Foster families, Sept., 451

G-6-PD deficiency, racial aspects, March, 20
Gate-control theory of pain, Dec., 626
physiology of, Dec., 649

Gingivae, assessment of, Dec., 676
massaging of, importance of, Dec., 683
Gingivitis, causes of, Dec., 674
Globulins, serum, in diagnosis of liver disease, June, 282
Glucagon, for diabetic hypoglycemia, Sept., 387–388
Glucose, blood, regulation by liver, June, 266
Glycerin, in oral care, Dec., 681
Glycogenesis, June, 266
Glycogenolysis, June, 266
Glycosuria, insulin-induced hypoglycemia and, Sept., 440–442
Grafting procedures, for peripheral arterial occlusion, March, 133
Growth and development, biological *variations in, March, 22*
Growth hormone, level of, in Somogyi phenomenon, Sept., 443
Gums, assessment of, Dec., 676
massaging of, importance of, Dec., 683

Head nurse, role in primary nursing, June, 250
Health care, cultural and biological diversity and, March, 1–86
ethnic groups of color and, March, 27–40
Health Maintenance Organization Act of 1973, Dec., 544
Heart disease, pain of, case history of, Dec., 645–651
Hepatic encephalopathy, June, 346. See also *Encephalopathy.*
Hepatitis
infectious, June, 306
neonatal, June, 309
post-transfusion, June, 308
serum, June, 306
toxic, caused by drugs, June, 301
viral, June, 305–315
clinical types, June, 309
nursing care, June, 312
types and characteristics, June, 305
Hepatitis A, characteristics, June, 306
Hepatitis B, antigen for, June, 283, 307
characteristics, June, 307
HHNK, Sept., 399
Hip replacement, bilateral, pain of, case *history of, Dec., 663–668*
History, patient, in liver disease, June, 268
Home safety, course in, for abusive and neglectful parents, Sept., 516–517
Homosexuals, as parents, Sept., 452–453
Hospitalization, effect on pain in children, Dec., 635
Humanism, in parenting, Sept., 474–475

Hydrogen peroxide, in oral care, Dec., 680
Hyperbilirubinemia, types of, June, 276
Hyperglycemia, patient education about, Sept., 387
rebound. See *Somogyi phenomenon.*
Hyperlipidemia, as factor in atherogenesis, March, 105
Hyperosmolar hyperglycemic non-ketotic state (HHNK), ketoacidosis vs., Sept., 399
Hypertension, portal, June, 317–329. See also *Portal hypertension.*
Hypofibrinogenemia, in liver disease, June, *280*
Hypoglycemia, in diabetes, carbohydrates for, Sept., 387
insulin-induced, effects of, Sept., 440–442
patient education about, Sept., 387
physiologic response to, Sept., 442–443
prevention of, Sept., 420, 424
Hypoglycemic agents, oral, Sept., 385

I.D.E.A.S. *system of urine testing* evaluation, Sept., 417–418
Illness, terminal, pain of, case history of, Dec., 653–662
Indian medicine, March, 55–65
See also American Indian.
Infancy, pain experience in, Dec., 631
Inservice program, in diabetes education, Sept., 371
Insulin
administration of, Sept., 386, 417, 424
patient education about, Sept., 385–386
role in Somogyi phenomenon, *Sept.,* 441
Insulin reaction. See *Hypoglycemia.*
Intermittent claudication, March, 90, 110
Ischemia, peripheral, March, 91
surgery for, March, 143–149

Jaundice, classification of, June, 276
in viral hepatitis, June, 310
Jaw, movement of, role on oral health, Dec., 672
Job satisfaction, primary nursing and, June, 221–234, 251

Kardex, in diabetes education program, Sept., 377–382
Ketoacidosis, hyperosmolar hyperglycemic *non-ketotic state vs., Sept., 399*
management of, Sept., 423–424
Keto-Diastix, *in urine testing, Sept.,* 384

Lactose enzyme, deficiency of, racial aspects, March, 20
Lactulose, use in cirrhosis, June, 298
Laennec's cirrhosis, June, 345–356. See also *Cirrhosis.*
Laetrile, for cancer, case history of, Dec., 565
L-Dopa, use in cirrhosis, June, 299
Leadership roles in primary nursing, June, 213
Leg ulcers, in diabetes, treatment of, Sept., 396–398
Lemon juice, in oral care, Dec., 681
Leriche syndrome, March, 98, 113
Lip(s), assessment of, Dec., 676
Lipids, serum, as factor in atherogenesis, March, 105
Listening, course in, for abusive and neglectful parents, Sept., 519–520
Liver
  alcohol metabolism in, June, 293
  anatomy and physiology of, June, 259–268
  biopsy of, June, 287
  blood supply of, June, 259
  detoxification by, June, 291
  diseases of, June, 257–356
    assessment in, June, 268
    caused by drugs, June, 301
    cirrhosis, June, 296, 345–356. See also *Cirrhosis.*
    diagnostic tests, June, 275–290
    effect on drug metabolism, June, 295
    patient history in, June, 268
    physical examination in, June, 271
    portal hypertension, June, 317–329. See also *Portal hypertension.*
    psychosocial assessment in, June, 272
    viral hepatitis, June, 305–315. See also *Hepatitis.*
  drug metabolism in, June, 291
  functions of, June, 262
  pharmacologic aspects, June, 291–303
  scanning of, June, 285
  ultrasound examination of, June, 286
Liver function tests, June, 275–290

Malnutrition, in diabetes, treatment of, Sept., 401–402
Masculinity, femininity vs., Sept., 485–486
Massage of gums, importance of, Dec., 683
Maternity patient, Oriental, understanding, March, 67–75
Medication(s), for pain, in cancer, Dec., 657
  patient attitude toward, Dec., 665–667
Meditation, transcendental. See *Transcendental meditation.*
Mellaril, for cancer pain, Dec., 657
Mental health clinic, ambulatory, Dec., 571–581. See also *Ambulatory mental health clinic.*
Mexican-American client, health care and, March, 32
Minority groups, health care and, March, 27–40
  See also *Ethnic groups of color.*
Modular nursing, as form of primary nursing, June, 210
Mongolian spots, March, 21
Motherhood, view of, current, Sept., 494–496
  traditional, Sept., 492–494
Mothering, Sept., 491–502
  tasks of, Sept., 494–495
  teaching skills of, Sept., 499–500
  See also *Parenting.*
Mother-father-infant (triadic) attachments, Sept., 484–485
Mountaineers. See *Appalachians.*
Mouth, care of. See *Oral health.*
  physiology of, alterations in, factors in, Dec., 672–674
Mouth breathing, complications of, Dec., 673
Mouthwash, in oral care, Dec., 679
Mucosa, buccal, assessment of, Dec., 677
Myocardial infarction, pain after, case history of, Dec., 645–651

Narcotics, addiction to, fear of, Dec., 665–667
Native American client, March, 35. See also *American Indian.*
Neomycin, use in cirrhosis, June, 296
Neurons, sensory, in pain transmission, Dec., 622
Newborn, hepatitis in, June, 309
  racial variations in, March, 21
Nitrogen balance, in diabetes, Sept., 401–402
Nurse(s)
  attitude toward ambulatory patient education, importance of, Dec., 596–599
  concepts of biological variation for, March, 19
  cultural conflicts in, March, 12
  primary, clinical responsibilities, June, 208. See also *Primary nursing.*
    role of, in student diabetes education, Sept., 411
  role of, in ambulatory care, Dec., 546
    in ambulatory mental health clinic, Dec., 572

Nurses (*Continued*)
role of, in day care, Sept., 531–532
in diabetes education, Sept., 367
in family development, Sept., 498–501
in oncology clinic, Dec., 561–570
in parent education, Sept., 477–478, 489
with families in transition, Sept., 466–467
student, in diabetic patient education, Sept., 407–414
Nurse practitioner, in ambulatory and emergency care, Dec., 553–559
in diabetes management, Sept., 415–426
Nursing, modular, in ambulatory care, Dec., 548
primary, June, 185–255. See also *Primary nursing.*
transcultural, March, 7
Nursing assessment. See *Assessment.*
Nursing care
after surgery for peripheral arterial occlusion, March, 143–149
ambulatory. See *Ambulatory care.*
cultural diversity and, March, 5–18
in ascites, June, 354
in bleeding esophageal varices, June, 335
in cardiac pain, Dec., 646–648
in chronic pain, Dec., 629
in cirrhosis, June, 348
in endocrine disorder, Sept., 408–410
in pain relief, Dec., 666–668
in providing optimal oral health, Dec., 669–685
in shunting procedures for portal decompression, June, 325
in Somogyi phenomenon, Sept., 443–444
in viral hepatitis, June, 312
of Appalachian clients, March, 49
of black client, March, 30
of child in acute pain, Dec., 639–643
of terminally ill patient at home, Dec., 653–662
primary, of diabetic with complications, Sept., 393–406
Nursing curriculum, inclusion of concepts of biological variation, March, 25
Nursing diagnosis
emphasis on, factors in, Dec., 614–616
historical aspects of, Dec., 613
of pain, Dec., 609–658
implications for, Dec., 613–619
in child, Dec., 642
purpose of, Dec., 617
Nursing service, types of organization for, June, 187
Nutrition, course in, for abusive and neglectful parents, Sept., 515–516

Objectives, behavioral. See *Behavioral objectives.*
Oncology clinic, nursing role in, Dec., 561–570
Opiates, effect on pain, Dec., 625
Oral health
assessment of, Dec., 674–678
factors in, Dec., 672
optimal, provision of, Dec., 669–685
agents for, Dec., 679–681
frequency of, Dec., 683
methods for, Dec., 682
value of, Dec., 671
Oriental client, health care and, March, 37
